RTCTL (Round Tube Cut To Length)

RTCTL-1: Electric Servo Feeding (Chip less Cut)

RTCTL-2: Hitch Feed (Chip less Cut)

RTCTL-3: Hitch Feed (Nick and Shear Cut)

Production Rates

- RTCTL-1 = Approx 30 PPM @ 12.00 Long.
- RTCTL-2 = Approx 30 PPM @ 12.00 Long
- RTCTL-3 = Approx 50 PPM @ 12.00 Long

Note: Production rates will vary with different materials and diameters.

System's material capacity range

- Diameter (.125 - .750)
- Length (4.00 thru infinite)
- Copper, Alumn. and Steel

Production Tolerances

- Part Length $\pm .005$ per stroke
- Straightness $\pm .032$ per foot or better

System options

- Uncoiler
- Endforming
- Larger Diameters
- Quick change tooling
